Let me introduce myself. My name is Ann. I am twenty. I am a student. I study at the university. I am a prospective economist. I like this profession, that's why I study with pleasure. My parents are not economists, but they support me in my choice. We are a friendly family and try to understand and support each other in any situation. Understanding and support is what I need in friendship as well. Some of my friends study at the same university. After classes we usually gather together, discuss our plans or problems and have some fun. We have a lot of hobbies.

Sometimes we go to the disco, sometimes organize a picnic in the open air, play sports or watch a nice film. One of my hobbies is cooking. So when my friends come to my house, I bake their favourite apple pie. I also like reading. One of my favourite authors is Chekhov. I like his books, because I can analyze the characters, their way of life and find answers to my questions. My friends also like reading. We sometimes discuss our favourite authors, their books, the style of their writing and ideas depicted in their books. I like making new friends, so, if you like, you may become my friend as well.

### **2. My best friend**

Let me tell you about my best friend. His name is Yuriy. We have known each other for ages. We live in the same town and went to the same school. Now we study at the same university. And though we study at different faculties, we see each other almost every day. My best friend is the first to come and support me in any difficult situation. We have a lot in common. We both do sports regularly. That's because we want to be strong and look handsome. We really look very much alike. We have short dark hair, grey eyes and a sport figure. We also have many similar features of character: we are merry, smart and active.

As Yura is an easy going person, he can easily make friends with anyone He likes communicating with new people. Yura likes travelling. We often visit new places, especially in summer. This year we plan to visit St. Petersburg. Yura's hobby is computer games. He can spend hours in the virtual world. As for me, I like the Internet, where I find interesting information and make friends with people all over the world. I am glad I have such a friend as Yura.

### 3. My family

Dear Hans!

Thank you for your letter! I will answer your questions about my family with pleasure. Today is Sunday, so we are all together. It is raining, that's why we are all sitting in the living room. My Mom is reading. She is a teacher of literature, so she reads a lot. She is a slim woman of about 40. Her pupils like her for she is an easy going and a kind person. Reading is her hobby. Besides, she is fond of cooking. When we gather together after a working day, there is always something tasty on the table. My father helps her sometimes with the house work. He is a doctor and has very little free time. He works a lot. When I was a child, I often visited him at the hospital and saw him at work. He always listens attentively to his patients and gives them his advice. His patients trust him and that makes his work easier. He decided to become a doctor, because his father, my grandfather, was a doctor too. They look very much alike. All my grandparents are retired now. They all live in the village, where my parents come from. They are happy to see the entire family when we come to them. We have many relatives. My aunts, uncles, and cousins live in different parts of our country. On holidays we often gather together and have a very good time!

Yours, Ann

### 4. My working day

I am a student of the second year of study. My name is Vadim. I am a prospective teacher of mathematics. Every day I have my hands full. Usually I do not have a lot of free time, so I have to plan everything beforehand. I get up at 6.30. I wash my face, clean my teeth, dress my sportswear and go to a sports ground. Jogging in the morning wakes me up, brings me energy and fills me with a good mood. After my morning exercises, I go home, take a cold shower and have my breakfast. I do not eat much in the morning, a sandwich with butter and cheese or jam and a cup of tea. I am glad all the members of my family have their breakfast at the same time. We may wish each other a good day and discuss our plans for the evening.

After breakfast I take my coat and a bag, and go to the university. It doesn't take me much time, so I am not usually late for classes. I have 3—4 classes a day. After classes I have dinner with my friends in the university canteen. Then I have to go to the library and get ready for my classes or to write a report. After that I meet my friends and spend the rest of the evening with them. We go for a walk, discuss our student life, and make plans for the weekend. Sometimes we visit a sports centre and play bowling or skate there.

I come home at about 8. We have our supper, which is usually light, watch TV, communicate with my parents, listen to my favourite music. Then I go to bed at 11 o'clock.

### 5. My pastime

My name is Nick. I study at the university. As I am fond of economics, I study with pleasure. I hardly have free time for my family and friends on week-days. I often dedicate all my time after classes to searching for new information in economics. Not all my friends understand it. But sometimes we stay together in the library and help each other with our tasks. It makes the work easier.

On weekends I have more time for my hobbies. These are computers and sport. We often gather together with my friends and play computer games. As I often win, I like to spend my pastime with my friends in a computer club. When the weather is fine, I often play football with my friends.

Sometimes I spend my pastime with my family. Our relatives come to our home and we enjoy talking to each other and discussing our plans for the future. Most of all I like summer holidays as I can have fun every day and enjoy life as it is.
